SUMMARY

A MERN Stack Developer with over 3 years of hands-on experience in building scalable web applications. Proficient in JavaScript, full-stack development, and modern DevOps practices. Experienced with Generative AI, RAG, and VectorDBs. Passionate about problem-solving, writing clean code, and continuously learning new technologies.

WORK EXPERIENCE

MERN stack developer, Arhamsoft Pvt. Ltd.

Oct 2024 - Present

Worked as a Junior Developer, designing and developing full-stack scalable web applications using vanilla JavaScript and various frameworks as well. Managed both front-end and back-end development, ensuring seamless integration and adherence to clean coding principles. Leveraged multiple libraries and technologies to build efficient solutions that met user requirements and solved real-world problems.

Node Js Developer, Twilight Dev (remote)

Sep 2024 - Oct 2024

Developed and maintained server-side applications using Node.js and Express.js, focusing on performance and scalability. Designed and implemented RESTful APIs for web applications, handling various CRUD operations. Collaborated with frontend developers to ensure seamless integration of APIs with the user interface. Utilized Git for version control to avoid conflicts.

TECHNICAL SKILLS

- **Technical Skills:** Node.js | Express.js | MongoDB | PostgreSQL | React.js | Next.js | Redux | Python | FastAPI | Generative AI | VectorDBs | RAG | Tailwind | REST API | Microservices | OAuth | JWT | TDD | Docker | Socket.io | JS | Vercel | Railway | Render | VPS (Contabo, Hostinger, cPanel) | Nginx | PM2 | CI/CD (GitHub Actions) | Server Deployment & Monitoring

PROJECTS

RAK mediation and arbitration (PERN Stack) • Arhamsoft

- Link: <https://rak.arhamsoft.org/>
- Developed the official website for the city of Ras Al Khaimah under the UAE government, delivering a dynamic and scalable platform. Built a fully customizable CMS to manage over 50 pages efficiently. Implemented complex user registration flows supporting 11 distinct user types, enabling seamless case and complaint handling. Engineered an advanced admin panel with role-based access control, providing multiple admin types with tailored dashboards and permissions.

CareMD (NextJS + MongoDB) • Arhamsoft

- Link: <https://www.thecaremd.com/>
- Developed a telemedicine web platform that enables patients to consult healthcare professionals remotely and receive online prescriptions. Implemented seamless user flows for condition selection, consultation submission, and treatment recommendations. Designed a responsive interface to enhance accessibility. Implemented secure and scalable backend services for handling sensitive medical data. Focused on performance, reliability, and seamless digital healthcare experience.

EDUCATION

Bachelor in Business and Information Technology (BBIT)

Sep 2020- Aug 2024

- University of the Punjab, Lahore | CGPA: 3.12
